

2018 Evaluation Form

Discovery Pivot 16"

Inseam Range: 18" - 25"

The Discovery Pivot is by far our most adjustable design. Our new versatile seating system allows for riders to maintain proper hip-to-foot alignment as they grow. Meanwhile, our completely redesigned frame allows riders to safely and comfortably transfer on-and-off the bike. For transportation and storage, we've introduced our new pivoting frame, removable rear wheels and detachable seat. The Pivot is fully customizable to suit any need, preference or style.

DCP Pivot 16"
