## Companion Ottoman

- Supports and elevates the legs
- Assists circulation
- Helps to reduce edema of the lower extremities

The Ottoman can also function as a side table for the occupant and/or caregiver. When set on its end, the Ottoman provides an ideal position for the caregiver to assist the child for activities such as feeding, communication, therapy, or to provide physical or emotional comfort.

## Foam & Fabric Spotlight

All patented process Crypton™ Textiles are stain, water and bacteria resistant. The key to this super fabric is its weaving process coupled with its proven barrier. Crypton™ is an extremely durable and machine washable fabric that meets some of the highest American standards for flame resistance.

Reflex® Foam is produced through Variable Pressure Foaming (VPFSM), a unique process that enables the production of a wide variety of density and firmness. Where other cushioning tends to sag and lose its shape, Reflex® provides buoyancy without loss of height, even after years of use. All foam used is flame resistant.

The Medbloc Liner is very durable, lightweight and washable. The smooth knit backing is soft and flexible with heat-sealed seams to prevent moisture seepage ensuring the hygienic integrity of the foam.
