

2018 Evaluation Form ASR 2011

Inseam Range: 19" - 34"

The ASR Odyssey is our most adjustable cycle! We've paired our highly adjustable slide seating system with our Knuckle Joint Steering system for added comfort and control. With the ability to add a Nexus 8-speed shifter, riders will be able to keep up with the rest of the pack while still enjoying the device's therapeutic benefits. The low 22" transfer height (with seat) allows for simple transfers without much stress. The stable, three-wheeled design enables individuals with limited range of motion to have their legs further forward, providing increased pedal power and strength.

CREATING A CYCLE OF mobility

Works for 80% of our Riders!

Special Education Setup
RSSSED

ASR 2011 RSSSED REAR STEER SPECIAL EDUCATION

- Indicates Features/Options Required to Create the RSSSED Setup:
